1. FOREWORDS

1.1 EUROPEAN VOLLEYBALL CONFEDERATION CEV PRESIDENT, MR. ANDRÉ MEYER

Ladies and gentlemen,
Dear Volleyball fans,

After joining their forces this past summer to host the final round of the 2012 CEV Junior Volleyball European Championship – Men in Randers and Gdynia, Denmark and Poland are about to welcome Europe's real Volleyball elite for what is the absolute climax of the 2013 season, i.e. the Men's European Championship.

Actually after Poland hosted the last and deciding stage of the junior competition, next year these nations will be switching their roles as Denmark and namely the splendid Parken arena located in Copenhagen will be the venue of the matches whereby the next "kings" of European Volleyball will be crowned. This is going to turn into the experience of a lifetime for all involved, starting with the Danish sports family, to continue with the local staff, the volunteers, the teams as well as the media and all those who will follow the competition on site!

A couple of years ago, as Denmark and Poland submitted their joint bid to host these Champs, we were all fascinated by the challenge associated with allotting Europe's premier Volleyball competition to a country with a limited tradition in the sport. Still, we all felt Denmark had much to offer to our Volleyball community and their innovative approach can surely guarantee a promising future for the sport in the years to come.

Additionally, the experience and mastery that Poland has accumulated by hosting many international competitions is an additional plus of this joint organization whereby Volleyball will be brought to the attention of a wider audience and certainly grow in its popularity and appeal.

With the Drawing of Lots recently held in Copenhagen having already set the tone for what will surely turn into a great Championship, we can already look forward to some memorable days as all of the best sides in Europe will be fighting for continental glory next September.

As I wish you all the best for your preparations and lead-up to this much awaited tournament, I also have to express my gratitude to our partners in Denmark and Poland as well as to the local authorities of the various cities that will play host to matches of the European Championship as they have showed, right from the very beginning of this ambitious project, their full support to the tireless and extremely professional work being performed by the local organizers.

Yours sincerely,

André Meyer
CEV President

1.2 POLISH VOLLEYBALL FEDERATION

PVF PRESIDENT, MR. MIROSLAW PRZEDPELSKI

Dear Sirs,
Dear Volleyball Friends,

We are proud and honored to host in Poland participants of 2013 CEV VELUX Volleyball European Championship – Men. Granting us by European Volleyball Confederation to organize this event we treat as award and recognition of Polish and Danish volleyball.

Poland and Denmark have already experience in the implementation of joint projects. In 2012 we organized CEV Volleyball Junior European Championship – Men. The level of organization was appreciated by foreign guests and European Volleyball Confederation. I have no doubt that this time it will be the same.

European Volleyball Confederation for years is making efforts to popularize volleyball in as many European countries as it is possible. Championship of the Old Continent for sure will serve on this matter.

I am also sure that our experience will pay off in the near future, when Poland will host best male teams in the world.

Volleyball is very popular in Poland. For matches of national teams as well club teams comes thousands of fans and media devote much attention to these events.

With pleasure I can admit that Poland was very successful in the distant past as well in last decade. Women's national team two times won European Championship. Men's national team was the best in Europe in 2009, second in the world in 2006 and first in 2012 FIVB World League. Polish clubs are also very strong and Polish League is recognized as one of the best in the world.

For the word of recognition deserve also Polish fans, well known as the best in the world. With their support our team can rich again for the trophy and create the best event in Europe.

On behalf of Polish Volleyball Federation I wish to all participants unforgettable moments in Poland and Denmark and above all, satisfaction of belonging to Great European Volleyball Family.

Sincerely yours,

Mirosław Przedpelski
President
Polish Volleyball Federation

1.3 DANISH VOLLEYBALL FEDERATION DVBF PRESIDENT, MR. ERIK JACOBSEN

Dear volleyball friends,

In Denmark volleyball is considered and accepted as a very popular and important sport, having around 20.000 licensed players and over 50.000 kids regularly involved in competitions arranged by our federation. Our country hosts 5 million inhabitants and the population in Denmark is active and very interested in sports.

The national competitions are of a high standard and followed by the media. Our national teams are participating in the various qualification events for European Championship, World Championship and qualifications for the Olympics Games all organized in an excellent corporation with the CEV and the FIVB.

The development of volleyball in Denmark is currently in an enormous growth and because of that, it is a pleasure for us in corporation with Poland to be able to host the exciting event, which the upcoming Men's Senior European Championship Final Round for sure will be. The success in our volleyball development is due to the effort of a lot of people in the volleyball family, and by hosting this major event we hope to bring further success to the field of all levels of volleyball in our country, as well as to stimulate the growth of volleyball in many other countries.

We are very proud that the CEV entrusted the Danish Volleyball Federation together with the Polish Volleyball Federation to be the organizer of the 2013 Men's Senior European Championship Final Round. In very close corporation with our friends and partners in Poland we will for sure make the championship to be a historic volleyball event in Europe.

Supported by Sport Event Denmark, The Danish Sports Association and the host cities of Odense, Herning, Aarhus and Copenhagen the Danish Volleyball Federation and all the volunteers will do our outmost for making this event unforgettable. Without a strong support from Poland and all our partners and volunteers it would not be possible for us to host this amazing event.

In the name of the Danish volleyball community I wish for all CEV officials, referees, players, staff members and volunteers an excellent European Championship in Denmark.

Best regards,

Erik JACOBSEN
President of the Danish Volleyball Federation
